REMARKS _____

50X1-HUM

1. A fuel dump was located in the forest east of Nieder Ullersdorf (O 52/B 15) on both sides of the railroad line leading from Mansdorf (O 52/B 15) to Friebus (O 52/B 04). The forest extended as far as the Mansdorf railroad station.
2. Permanent brick buildings were seen in the woods. A spur railroad track led to the dump. A small road led from the fuel dump, via Nieder Ullersdorf and Ober Ullersdorf, to the Friebus-Sorau (O 52/B 16) main road.
3. The fuel dump has been under Soviet administration since 1945. Soviet soldiers wearing "yellowish" epaulets were seen near the installation. The tactical symbol seen on the Soviet trucks and tank trucks represented a large white T on a white-bordered field about 20 cm square. *

50X1-HUM

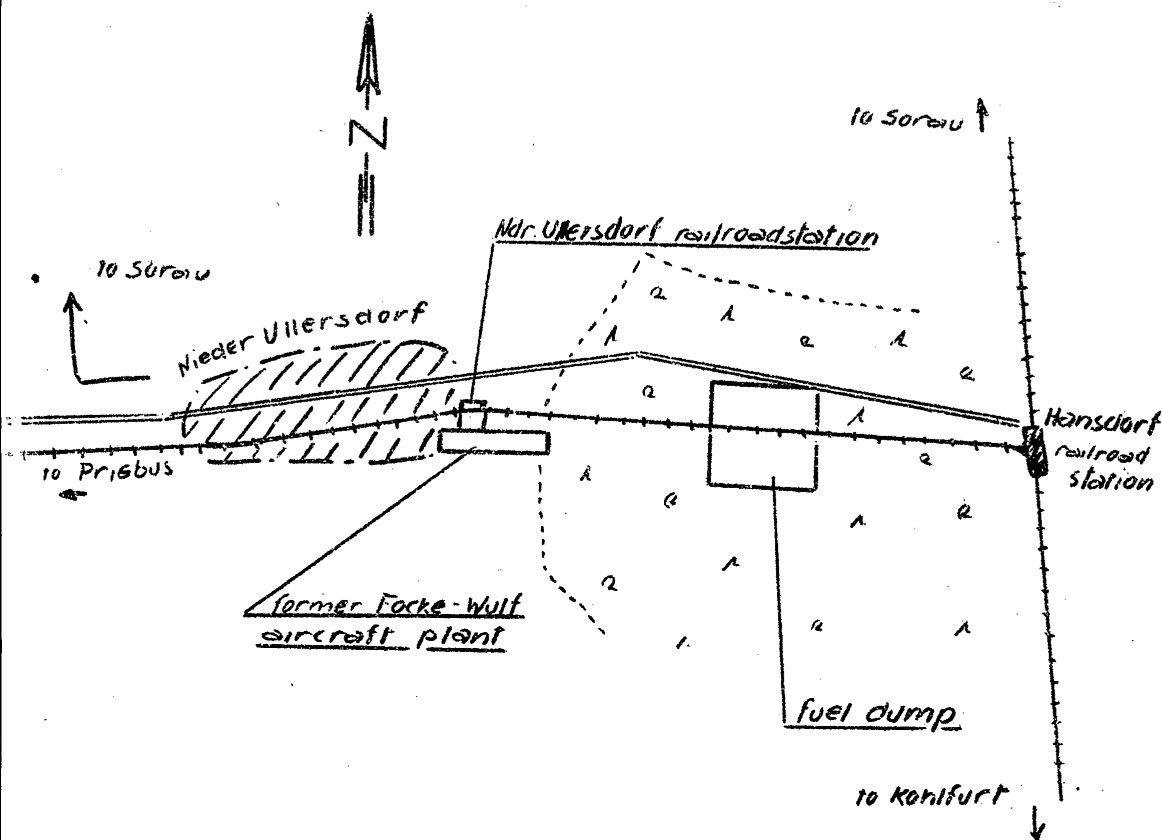

* Comment. For location sketch of fuel dump, see Annex. The installation is a former German Air Force fuel dump. It appears that the fuel dump is now assigned to the Soviet Army according to the reported color of the epaulets which, however, are probably pale red instead of yellow. The tactical symbols on the trucks are the regular symbols for motor vehicles.
